The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REUBEN PUTTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially is this the case in Consumption, (Cough,) it speedily allays the unpleasant irritation in the throat which excites coughing, promotes free, and easy expectoration and by removing the exciting cause of the cough it effectually enables the sufferers to enjoy natural and refreshing sleep, which for weeks had been denied them by their cough.

☞ Sold in small bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Cheelmsford, Maine.

CHELMSFORD, Middlesex Co., Mass., Nov. 27th, 1855

To Rev. Walter Clark, Dear Sir.—The bottle of Cough Mixture which I bought of you at Topsham fell the day I left home, and broke. I was sorry to lose it, for it caught me two weeks—that bottle entirely removed it.

From Rev. Isaac Hoyt, Lewiston Falls.

Rev. Isaac Hoyt, of the Universal Cough Mixture, of which you sent him pay, it sold—and have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a complaint long standing, and was troubled with a distressing cough and soreness in the lungs, purchased two large bottles, and before he had taken two bottles of it, was perfectly cured; and has had no cough since. We safely say it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chase, agent for North Dunmont, Maine.

DEAR SIR.—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had caught a severe cough and sufferers who from a cold, doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mr. Hubbard, Thorndike, Me.

THORNDIKE, Dec. 1, 1854.

To Rev. Walter Clark, Dear Sir.—This certifies that I have used two bottles of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several bottles of medicine, and had been under the care of a skilful physician, without obtaining the least benefit, happily for me, your Universal Cough Mixture was recommended to me. I purchased a bottle, which I began to take according to direction on the label, by which in a few days I was entirely cured.

GREAT American and Foreign Office,

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (*instead of twenty, as paid heretofore by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, far surpassing the patentability of inventions, unequalled by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specification, Assignments, and all Papers and Drawings necessary for the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more worthy their confidence, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office,

Late Commissioner of Patents."

[From the present Commissioner.]

"Agency, U. S. Patent Office, June 16.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly acquainted with the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,

GREAT REDUCTION TO CLUBS!

ENCOURAGED by the very liberal patronage heretofore bestowed upon the Journal, and in accordance with the spirit of the present age, the proprietor has decided to reduce the price of the *Weekly Journal* to Clubs, to the following rates:

One copy, one year.....$2.00
Two copies, one year, to one address.....3.00
Five copies, one year, to one address.....6.00
Ten copies, one year, to one address.....10.00

PAYMENT TO BE MADE

At the expiration of the time for which advance payment has been received, the paper will in all cases be stopped. By the adoption of this cash system, the employment of agents to collect subscriptions will be unnecessary, and their expense *will be saved to the subscriber.*

THE BOSTON JOURNAL

has for many years confessedly stood at the head of the newspaper press of New England. This position was attained not through any special effort on the part of its proprietors to secure it, the simple fact being that it has proved to be such a paper as every moral intelligent man in the community might wish to introduce into his family circle, to be read by his children, and from which he might draw lessons both of instruction and entertainment. With such a character it has earned the position it occupies, and the fact that its circulation is much larger than any other paper of its class in New England, is the best proof of the estimation in which it is held by the reading community. The purpose now is greatly extend the circulation of the *Weekly Journal*. Preparatory to doing this, we have procured

New and Beautiful Type,

with which to print it, and have also ordered one of

Hoe's Six Cylinder Fast Presses,

which we can print FIFTEEN THOUSAND COPIES AN HOUR. The press will enable us to work off our forms to a very late hour for important news, and yet to work off the edition in season for the mails. With this improvement in our printing department, we believe we can give our readers as handsome a paper as is printed in New England. The general character of the paper has proved so acceptable that we shall attempt no change. It is, and will be, emphatically

A Family Newspaper,

We intend that it shall be a complete record of the events of the age in which we live; that the attentive and careful reader of its pages shall be able to gather from them accurate and reliable information of every event of interest in politics, the arts and sciences, morals and religion, in this country, and in foreign lands; and that they shall have this information at an earlier day than they can obtain it from any other source. To collate this intelligence from the thousand different sources where it is to be found, to separate the wheat from the chaff, and to arrange and present it to the reader in a concise and intelligible form, is a work requiring not only a great expenditure of money, but also years of experience. We have the services of MEN SO QUALIFIED FOR THE BUSINESS, to prepare the matter for the JOURNAL, and we shall spare no expense to enable them to do their work in the most thorough manner.

The COMMERCIAL DEPARTMENT of the JOURNAL is second to that of no other weekly paper in New England. It embraces a carefully corrected PRICES CURRENT; a REVIEW OF THE MARKETS for the week; stating the amount of business in the different articles of merchandise and the variation in prices; a separate article on the MONEY MARKET; original reports of the Brighton and Cambridge CATTLE MARKETS, the NEW YORK CATTLE MARKET, SHIP NEWS, &c. These reports are all prepared by men of large experience, thorough conversant with the department under their charge, and they are now relied upon by thousands of merchants and traders throughout the country, to guide them in their purchases and sales.

The LITERARY DEPARTMENT will embrace reviews and extracts from advance copies of the works issued by the leading publishing houses throughout the country. In this way the readers of the JOURNAL get the cream of the literature of the country, and are enabled to select from the flood of new books issued such as they may desire for their particular use or the shelves of their libraries.

In the MISCELLANOUS DEPARTMENT we shall make provision for the entertainment and instruction of our young friends—*the children*. A good story—calculated to improve the mind and heart, while it furnishes entertainment for the passing hour, will be a prominent feature in this department.

THE BOSTON DAILY JOURNAL,

(Morning or evening edition, as may be desired,) is sent to subscribers by mail, in any part of the United States, for SIX DOLLARS a year. By means of our Press we are able to keep the forms for the DAILY JOURNAL open several hours later than any other daily paper, and thus not unfrequently to publish important news from TWELVE to TWENTY-FOUR HOURS IN ADVANCE. The average circulation of the DAILY JOURNAL is more than double that of any subscription or two cent paper published in Boston.

THE SEMI-WEEKLY JOURNAL,

containing all the reading matter of the *Daily*, is published TUESDAY and FRIDAY mornings at FOUR DOLLARS a year.

BOSTON JOURNAL FOR CALIFORNIA

is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care for the information of New England men in California. Over TWELVE THOUSAND COPIES a month are now sent there, which is a much larger circulation than any other paper printed in the Atlantic States has. It is mailed at this office for SIX CENTS a copy. A person sending one dollar can have one each of sixteen numbers sent to any one they may desire.

☞ Agents and Newsmen supplied with either Edition of the JOURNAL, on the most liberal terms.

Orders for either edition of the JOURNAL must be *invariably accompanied* by the CASH, and should be addressed to CHARLES G. ROGERS,

12 State Street, Boston.

Boston, December, 1855

To newspapers that may copy this prospectus, with an editorial reference directing attention to it, and send a copy *marked* to this office, we will send the Daily Journal for one year.

The Straw Whig Leaders on the Admission of Kansas.

—Have the readers of this paper noted the recent reports of the proceedings of our Legislature, on the Kansas question? If they have not, it would be well for them to look to their doings. Mr Morse of Bath introduced some resolutions into the House, instructing the Senators, and requesting the Representatives from this State to vote for the immediate admission of Kansas, the people having adopted a free State Constitution. Similar resolutions were introduced into the Senate, by Mr. Barker of Hancock. They were immediately pounced upon in each branch, by men calling themselves Whigs! Mr. Lyman from Portland, in the House, and Mr Barnes of Portland, in the Senate, moved at once, to choke them off by laying on the table. They were discussed in the House more fully than in the Senate, but tabled. The yeas and nays are recorded, and we believe that nearly every Straw Whig and Pierce democrat voted to lay them on the table, and perhaps kill them if in that year. Is this to be the fruit of the success of the fusionists in Maine, at the last election?

Do not all these men know that they are violating their professions and pledges to the people before election? Do they not solemnly assevrate, everywhere, during the canvass, that they never would aid, directly or indirectly, to allow slavery to go into Kansas? Have the people of Maine forgotten the speeches of those men, denying that they had any sympathy with Pierce's administration on the slavery question, and when the time came to act on it, they would be found with the friends of freedom for Kansas? Did they not tell the people over and over again, that there was nothing but questions of State policy at issue, and that they were strongly opposed to the Nebraska bill and could be, and would be found there, when the time for action arrived? Did not George Evans and the troupe who followed in his wake, around the State, all declare they were interestably opposed to allowing slavery to be established in Kansas, and also were opposed to the admission of any more slave States? Who has forgotten their speeches? And now what is their plea? Oh, "they do not know that Kansas intends to apply for admission? Congress has not yet got organized, and when they can get some *information* on the subject they can act!

Now, this is said, when an agent from Kansas has been at Augusta, for the very purpose of getting an expression from the Maine Legislature on the matter, and lectured to the people of Augusta, and invited the members to attend in the Hall of the House of Representatives. Will such coldness and even opposition satisfy the people of Maine? and especially, will the 10 000 Straw Whigs in Maine be satisfied with the course of their representatives, in being the first to lead off to aid the office-holders of Pierce to kill any expression from Maine in favor of freedom?

The great design of the Pierce party in this country, now is, to nationalize slavery.

There could not have been fifty members of both branches of the Legislature elected, had the people believed they would, directly or indirectly have aided in this nefarious scheme. Let the people mark the traitors.

The Bangor Journal in its long leader of Saturday, based upon a simple suggestion of the Whig, that the Straw Whigs should consider "whether the democratic or the Republican party best represents their old and long tried principles, runs into its usual channel of abuse and misrepresentation of the Republican party—falsely charging it with disunion—repeating for the thousandth time, the stale and amply refuted slander that Messrs. Wade and Banks are opposed to the Union, and changing upon the Republican party the ultraisms of the Garrisonian abolitionists. The latter in the Journal's favorite card, and it uses it upon every occasion. How does such a line of argument appear, however in a paper which openly gives its preference to the democratic party a party which has *in full communion with it* abolitionists as Gov Johnson of Georgia, Brooks of South Carolina and all the other slave eaters, who declare that they will do their utmost to dissolve the Union, unless slavery is legalized everywhere under the national government? The Garrisonian disunionists do not belong to the Republican party, while the southern disunionists do belong to the democratic party—vote with it, and act with, are acknowledged as part of it and are to be represented in its National Convention! And yet the Bangor Journal openly gives in its adhesion to this democratic party, in the very article which is under notice, under the pretence that it is more of a "Union" party than the Republican. It says that "the Whigs of Maine will have no doubts or hesitancy as to their ultimate choice, and that they are not so bigoted or besotted with political creeds or modes of faith that they could not, for a purpose so *Holy*, join their strength to that great party."

We have no more to say in reply to the Journal's article,—except it is the tone of that paper has wonderfully changed since the campaign of 1854, when it held up the "political creeds and modes of faith" of the Whig party, as an insuperable objection to any fusion with the Anti Nebraska party, *whose principles it then pretended to favor*, and in whose doctrines it did not then pretend to discover any disunionism. The Whig organization, and "modes of faith" were then everything in its eyes—they are nothing, nothing.

Perhaps we should add the following extract from the Journal's article, the more fully to show its entire drift and meaning

> It is well known that many articles once considered orthodox in the whig faith, have become obsolete, while some new ones have been added to it. It is not a stand still party, but one of progress, and it will be found that in its onward march it *has surely, perhaps unconsciously, converged towards the fundamental principles of the democratic party at this day*, while on the other hand, political observers cannot but see that the old democratic party has been gradually approaching us.

If we recollect aright, Mr George Evans, in his campaign speeches, declared that the Whig party and principles has date in the time of the Stuarts, and had remained immutable and unchangeable to the present day

Home Lectures.—We understand that the Bangor Mechanics Association are making arrangements for a course of Home Lectures, to be delivered in Norombega Hall, and probably to commence within a week or two. Lectures are expected from Professors Shepard and Harris, and several of the other clergymen of the city.

The Course will consist of eight or nine lectures. Tickets for the course to be 50 cents, single tickets 12 cents.

Ordination at Oldtown.

Mr. Ebenezer Douglass is to be ordained at Oldtown to-morrow, (Tuesday.) We learn that an arrangement has been made with the Directors of the Bangor, Oldtown and Milford Railroad, by which those who go on to the cars to attend the ordination can be accommodated at half price. The Council meet at 9 o'clock the public services of ordination will commence at half past one in the afternoon. The cars leave Bangor at 7 o'clock A. M. and at 12 o'clock.

Gov Bigler of Pa, authorizes the Pennsylvanian to deny the report that his election as U S Senator is a triumph for the Pierce democracy. He says he is in favor of Buchanan for the Presidency. Pierce meets with many rubbers at the North. His reliance, however has been, and is, mainly upon the South.

John A Pettingill nominated for Sheriff of Kennebec, as a Straight Whig, and held the office under Crosby. Francis Davis, the Register of Probate is a Democrat, and formerly held the office for several years.

A Cincinnati correspondent of the Traveller writes that hogs, which, at the commencement of the season sold at $7 per hundred, have declined to $5 75 at which price sales have been made. Flour is plenty at $7 per barrel.

The State Paper. It may be interesting to some of our Straw Whigs to know that one of our city representatives, who is part owner of the Bangor Journal establishment, voted to make the Age State paper—the leading Nebraska and Pierce organ of the State.

The birthday of Daniel Webster, (January 18th,) was celebrated in Boston by a banquet at the Revere House, at which some 200 guests were present. The leading address was made by Edward Everett.

The British Periodicals. Attention is called to the advertisement of the American republications of Blackwood and the British Quarterlies. New and valuable inducements are offered to subscribers.

The Democrats of the Fourth District held a Convention at Wiscasset on the 14th, to select delegates to the Cincinnati Convention.

An Eloquent and Truthful Reply. One of Mr Banks replies to the interrogatories in the House on Saturday was as follows, in part. (The questions were addressed to Mr Richardson, but afterwards propounded to all the candidates for the Speakership.)

The Clerk read the third question as follows:

> Am I right in supposing that the theory is that the Constitution of the United States does not carry slavery of itself into the Territories of the United States?

Mr. Banks. I do not believe that the Constitution of the United States carries the institution of slavery to the territories of the United States. My understanding is based on the declaration of Mr Webster that even the Constitution of the United States itself does not go to the territories until it is carried there by act of Congress. Standing on the principle of the English law governing the same interests, I do not believe that the Constitution of the United States carries to any territory of the United States any right to hold slaves there.

I believe that the Constitution of the United States was intended to do justice to all sections of the country—to the South equally with the North. I am for that to-day, and I adopt the language of my friend (Mr. Richardson,) who has always treated me with distinguished courtesy) all discussions on this subject, that we should do justice to the South as well as to the North. In no speech that has fallen from my lips, sir, as far as I can remember it, have I ever expressed a different sentiment, but sir, I cannot shut out from my memory the great fact that the Constitution of the United States is an instrument of freedom, as such interpreted as such by all the framers and interpreted as such by almost all men of the South and the North until within the last few years. It is a chart of freedom established to secure the blessings of liberty to ourselves and our posterity, giving liberty to the States to do what they shall think to be proper within their own localities, under such circumstances as to them shall seem to be right and just; but claiming no right and conceding no right to them to carry their own peculiar institutions beyond the limitation contained by the doctrine of the sovereignty of states.

No, sir! The Constitution of the United States is an instrument, not of immediate, but of ultimate and universal freedom. It was so contemplated by the great men who framed it and the world has so regarded it. The motto on the flag that is its symbol, that makes the land over which it floats, in whatever quarter of the globe, so long as it covers an American citizen, American territory, is the banner of ultimate and universal liberty—its white and red folds symbols of revolutionary trials, of the streets of victory and the blood of sacrifice. May its stars, as an emblem forever stand as lustrous and imperishable as the golden fires of God's firmament! (Great applause.) That is my answer to that question.

In the Lamoria county of the Hon Reverdy Johnson, a local Methodist preacher recently died in Union in this State. He had been a preacher 34 years, had preached 3744 sermons, attended 900 funerals, travelled 93 560 miles, and received as compensation $638! It is said to have been an excellent man, and an instrumental of much good to the people among whom he labored. His average yearly salary was not quite twenty dollars!—*Dexter Gem.*

John G. Saxe failed to meet an engagement to lecture in Albany the other evening, in consequence of the snow storm and the slow rate of speed on the Camden and Amboy Railroad, for which he was slightly censured by the Albany Evening Journal. Thereupon the Bellingham poet wrote a note of explanation, by which, with characteristic humor, he says—"I had no motive to break the engagement, and every motive except a low motive to keep it."

Washington Correspondence.

Washington, Jan 12th, 1856.

Two weeks have elapsed since the meeting of the present Congress, while to all appearances the House is no nearer an organization than on the first day of the Session. The triangular contest, and the persistency with which all parties have adhered to their platforms and candidates has rendered the election of Speaker by a majority vote entirely out of the question. It is impossible for a Speaker to be chosen until the plurality rule is adopted. This should have been done long ago, when it became evident that no party had a majority and that none intended to yield.

The friends of Mr Banks have attempted to do this repeatedly, but have as often been defeated by the combined vote of the democratic and South Americans. However, we shall have it. The democrats now, as a general thing, favor an early organization, and that at the first day of the plurality vote being adopted, and the consequent organization of the House, by the election of Banks, Speaker, in fear that delay may give to do so, lest the Southern K N's gain some advantage in the South; by making it appear that the democrats were responsible for the election of a Republican Speaker, when they should have been made responsible to the interests of the oligarchy. This might operate badly in the coming Presidential election; considerations in regard to which can not be ignored by, since both the democrats and Americans are doing everything to secure the slave vote.

The discussion in the House, to-day, brought out by the resolution of Zollicoffer of Tennessee, requiring every candidate to answer certain interrogatories in regard to their political views, though it may delay the election of Banks, clears it ultimately more certain. It shows that the democrats and Americans can, by no possibility, unite—and the Know Nothing Fillmore in answering the questions proposed, took a profound roll in the dirt, that no one who ever saw the light of a Northern sky, can long withhold his support.

The Republicans will stick to Banks to the last, he will be elected, and the Union preserved.

The Republicans are in good spirits and full of pluck, and the friends of freedom throughout the Union may rest assured, that in the great issues of human rights is in the keeping of the hundred men, good and true, who have stood up for Banks, it will receive no detriment.

January 14th, 1856.

The House wasted three hours to-day, with many ineffectual ballotings for Speaker, per sonal explanations, and buncombe speeches. One of the stragglers and trimmers, feeling uneasy in their minds and consciences, have apparently to give vent, by personal explanations. They are frequently driven to it, also, by the strictures on their conduct contained in the letters of Horace Greely to the Tribune. They usually, in these personal explanations, come down on Greely, with all the bitterness and venom at their command, declare their devotion to the cause of freedom and humanity, announce their intentions to do right when they will do any good, and finally sit down with the interesting consciousness that if their Creator did not make fools of them, they themselves have done it, and what is worse that the whole house sympathizes with them fully in the opinion. Greely sits at his desk in the lobby, calm as a clock, quiet and pleasant, jotting everything that transpires, but disturbed at nothing said of him, however venomous. His industrious face has been of the best character. Many a weak brother has escaped having a pleasant look, lest he might have the fact announced in the N Y Tribune. Greely remarked, to day, that the delay in the organization of the House was the best thing for the friends of freedom that could happen—that it showed upon the character of the contest they were about to open, and prepared them to do their duty. It is also shown who can be relied upon in any event.

I noticed in the House to-day, Thaddeus Stevens of Penn, a long time a member of Congress from that State, and an old war horse, of freedom. He observed to Henry M. Fuller, who thought he was to become a grand man by thrashing his anti-Nebraska constituents, that he could not be Speaker, "You can't get votes enough, the South have used you all they wish to, and will now give you the go by as they did Webster." Fuller received the above with becoming coolness, but looked as mean and shamed as the meanest man in Congress could look.

At the close of the Session, Gen W. Jones of Tenn, gave notice that the friends of Richardson would hold a caucus in the Hall of the House, this evening. It is thought they will vote to adopt the plurality rule to-morrow. Should they do so, you will hear of the election of Banks before this reaches you. Hasty to be

A Wonderful Mirror. Among the curiosities to be met with in the Paris Exposition, was a huge concave mirror, the instrument of a startling species of optical magic. On standing close to it, it presents nothing but a magnificently monstrous dissection of your physiognomy. On retiring a couple of feet, it gives your face and figure in its true proportions but reversed, the head downwards. Retire still further, standing at the distance of five or six feet from the mirror, and behold, you see yourself not a reflection—so does not strike you as reflection—but your veritable self, *standing in the middle part thirteen you with the mirror*. The effect is almost appalling. From the idea it suggests of something supernatural, so startling, in fact, that even of the strongest nerves will shrink involuntarily at the first view. If you take your cane to thrust at your other self, you will see it pass clean through the body and appear on the other side, the figure thrusting at you at the same instant. The artist who first succeeded in fashioning a mirror of this description, brought it to one of the French kings—if we recollect aright, it was Louis XV—placed his Majesty on the right spot, and bade him draw his sword, and thrust at the figure he saw. The king did so, but seeing the point of a sword directed to his own breast, threw down his weapon and ran away. The practical joke cost the inventor the king's patronage and favor; he Majesty being afterwards so ashamed of his own cowardice that he would never again look at the mirror or its owner.

Bayard Taylor will make, it is said, $5000 this season by lecturing. John G. Saxe will get $4000, if the latter does not break up too many of his engagements.

Democratic Calculations.

—We invite the attention of the Straitest Whigs in this region, to the following intimations of the future operations of their leaders. The extracts are from a leading article in the last Belfast Journal—democratic Buchanan paper

> There is nothing that we can see to divide the two parties that have acted together for the purpose of redeeming Maine from the hands of a corrupt coalition at last year. Their sentiments are the same in relation to the great issues before the whole country.
>
> The old whig party of the nation is definitely declared to be dead in the nation. It has no national committee to call it together. At the south it is merged in know nothingism, and the same is true in New York. In Maine they have formed an organization to this day. The question now concerns its continuance. We have already shown that the two parties are not divided in principle. The next question is as to expediency. We are free to say that we see no reason of expediency for perpetuating the two organizations. A continuance of two nominations, with a division of the honors and emoluments of offices to adjust,—though in the present instance happily accomplished—is an *abandonment of weakness*.
>
> We have thrown out these suggestions because *we expect is now attracting much attention*, both in Augusta. There need be no immediate haste about the matter. It must be a year or June. *With a favorable issue of our two national conventions* the first of June, and the promised success of the state administration, we look with confidence to see the present whig and democratic parties of Maine, by mutual well-becoming ranks, march all one step, and on one banner, with one hope and to one common victory.

British Threats—Means of Coast Defence.

—*Washington, Jan. 14, 1856*—The London Herald of Dec 30th, after an outpouring of violent misrepresentation in defence of the action of our neutrality laws by British officials, goes on to tell us without mincing, that it does not go to war with England. We are accordingly informed that "the United States, in their extent and pretensions, constitute in reality anything but a formidable power. They have an enormous sea board on two oceans exposed," &c

It is time we remind this boasting maritime power that if we have *"an enormous sea board on two oceans exposed,"* modern science, an overflowing treasury, and the inventive genius of a people, are fully adequate to their defence. The allied fleets *talked* and *blustered* in the Baltic for two years in the same fashion, but what have they *done?*

There are in the secret archives of the War and Naval Departments drawings and plans of submarine batteries with which the channels and approaches of our harbors can be strewed with such thick and close array, and upon line, and power upon power, as would hurl to swift destruction all the navies of the world if they broke upon their parks. All the ships now afloat could not, if we have ten days warning, take position to bombard New York. The naval gun battery, governed by electricity, and charged with shot and shell and the liquid fire of the ancients, (lately re-discovered by the Yankee inventor of the nautilus battery,) is of itself sufficient to make any coast it defends invulnerable.

Then there is the still more concentrated and terrible nautilus shell, and various other appliances of defence growing out of the skillful combination of the latest discoveries which Congress has the means to test and put to use at the shortest notice.

Sarcastic Sentence.

—Old Elias Heyes, formerly Judge of Windsor county, Vt was a strange composition of folly and good sense, of natural shrewdness and want of cultivation.—The following sentence, it was said, was pronounced upon a poor ragged fellow convicted of stealing a pair of boots from Gen Curtis, a man of considerable wealth, in the town of Windsor

"Well, said the Judge, very gravely, before pronouncing the sentence of the court, undertaking to read the fellow a lecture, "you are a fine fellow to be arraigned before the court for stealing. They say you are poor—no one doubts it who looks at you, and how dare you, being poor, have the impudence to steal a pair of boots? Nobody but rich people have a right to take such things without paying! Then they say you are worthless—that is evident from the fact that no one has ever asked justice to be done to you, all by unanimous consent, pronounced you guilty before you were tried—Now you might know you would be condemned. And now you must know that it was a great aggravation, that you stole them in that large town of Windsor. In that large town to commit such an act is most horrible. And not only to go into Windsor to steal, but you must steal from that great man, Gen Curtis. This caps the climax of your iniquity. Base wretch! why did you not go and steal the only pair of boots which some poor man had or could get? and then you would have been let alone, nobody would have troubled themselves about the act. Put your iniquity in stealing in the great town of Windsor, and from the great Gen. Curtis, the court sentences you to three months imprisonment in the county jail, and may God give you something to eat."

The California Homicide Calendar.

A colored servant sweeping out a hotel boarder's room, found a sixpence, which he carried to its owner. "You may keep it for your honesty" said he. Shortly after he missed his gold pencil case, and inquired of the servant if he had seen it. "Yes sir, was the reply—"And what did you do with it?" Keep um for my honesty, sar."

Legislature of Maine.

Thursday, Jan 17.

Senate. Mr Hodsdon, from the committee on Interior Waters, reported order of notice on petition of H Strickland and others, for an act for the better protection of logs on the Penobscot river.

Order from the House, directing "that all petitions requiring order of notice, presented after the 15th day of February next, be referred to the next Legislature without debate," was, on motion of Mr Barnes, amended, by striking off the words "without debate."

Mr Jenkins, from the committee to whom were referred the papers and files relating to the business referred by the last Legislature, made report referring said papers and files to the appropriate committees of the present Legislature. Report accepted.

Petition of the President and Directors of the City Bank, Bath, for increase of capital. Petition of the Trustees of Westbrook Seminary, for an endowment for the establishment of a department of instruction in said Seminary, of John H. Russell, that the Land Agent may be authorized to settle with him for lands.

House. On motion of Mr Deering of Hampden, the committee on Education was instructed to inquire into the expediency of establishing a State Normal School.

Resolve appointing The Age the State paper was read a second time.

Mr. Scammon moved the yeas and nays on the passage of the bill to be engrossed. He belonged to the Whig party in its palmy days. In those days the Whig party was the butt of ridicule to The Age. Now he should be glad to define his position by voting for the Kennebec Journal, the organ of the 52 000 voters of the Republican party. And he was desirous of knowing whether any Whigs have got so far into the bowels of loco focoism as to vote for the organ of Frank Pierce.

Mr Cochran of Waldoborough, learned his politics, if he had any, from the Kennebec Journal. But that journal had deserted its old principles, and Mr C., as the representative of 7 60 old Whigs, in the largest Whig town in the State, should feel it his duty to vote for another paper for State paper, in place of the Journal, which has proved to be so traitorous. He contended that those are not Whigs who have gone off into Know Nothingism, abolitionism and all the other isms under heaven.

Mr Swasey, of Bucksport, said when he used to be a Whig, temperance and anti slavery were considered the developments of Whig principles.

Mr Scammon said the Whig candidate for Governor was supported last year under the pretense that he would be made Governor. But that candidate has been abandoned by his friends as a candidate for Governor, and has sold out himself and his friends for $900.

Mr Cochran denied that there had been any selling out on the part of Mr Reed, and urged that he could not have been made Governor except by a union with that party which had cheated the friends of Mr. Reed once before.

Mr Pearson of Machias, was a Whig and always a Whig. He had supported Mr. Reed when he was first nominated, and had intended to vote for him at the last election, until Mr Reed published a letter showing that he had deserted the principles on which he was first nominated. Mr. R. suggested that the gentleman from Waldoborough showed by the epithets which he used, that he had been a diligent student of the Age recently, and he had certainly proved himself to be an apt scholar.

The resolve was passed—yeas 85, nays 60.

Petitions referred. John Bird and others, of Ward No 7, in Rockland, for incorporation into a separate town. J S Putman and others, that one term of the S J Court in Aroostook County may be abolished. Ezra Clark and others, for appointment of inspectors of Gas Meters. Wm Woodbury and others, and M Gallagan and others for same. S P McKenney and others, for charter of City Bank, Biddeford. Trustees of East Maine Conference Seminary for aid.

Holloway's Ointment and Pills the most celebrated Remedies for the Cure of Sore Arms. Samuel Wentworth, of Norway Maine was for five years afflicted with sore arms. There were four different ulcers on them, and the irritating nature of the business (a potmaker) made them so much worse, that despite of his wishes, he was compelled to relinquish it. He tried various remedies, and then failed to benefit him. However, about 13 weeks ago at the recommendation of friends, he had recourse to Holloway's Ointment and Pills, which very soon made him better, and he called on Professor Holloway four weeks since, to show him his arms which were quite well, and with scarcely the scars perceptible.

The British Periodicals.

PREMIUMS

TO NEW SUBSCRIBERS

L. SCOTT & CO, New York continue to furnish the following leading British Periodicals viz

1 THE LONDON QUARTERLY (Conservative)
2 THE EDINBURG REVIEW (Whig)
3 THE NORTH BRITISH REVIEW (Free Church)
4 THE WESTMINSTER REVIEW (Liberal)
5 BLACKWOOD'S EDINBURG MAGAZINE (Tory)
6

THE great and important events—Religious, Political, Military—now taking place in all parts of the World give to these publications an interest they never before possessed. They contain a wide ground between the hastily written news and flying rumors of the newspaper and the prolix Tomes of the historian, written long after the living interest in the facts he records has all passed away. The progress of the War will be the most prominent feature in the Articles on it in Blackwood's Magazine in the most popular contributions given a more detailed and reliable account of the movements of the belligerent powers than elsewhere to be found.

I have Periodicals fully represent the three great political parties of Great British—Whig Tory and Radical but politics forms only one feature of the Periodicals. Organs of the most prominent writers on Religion Morality and Religion they treat of every subject of general interest in the world of letters in a manner unapproachable by the scholar and the philosopher while to the intelligent reader of every class more correct and satisfactory information on the current literature of the day throughout the World cannot possibly be obtained from any other source.

EARLY COPIES!

The receipt of Advance Sheets from the British Publishers gives additional value to the Reviews, as during the present extra issue of our Periodicals, as much as three can now be placed in the hands of subscribers about as soon as the original publications.

WASHINGTON, Jan. 19

HOUSE.—Chairman and Grow spoke, one defending the South and the other the North, concerning the slavery question.

Cobb gave a history of plurality rule of 1850 saying, that before its adoption eight administrations came from the Democrats and one from the Whigs the Democrats then claimed to have the majority, but owing to desertion in their ranks, could not all unite on a candidate for Speaker The Republicans are now similarly situated and should have the benefit of its rule The Democrats denounced the Whigs as bitterly then as they do the Republicans now

Bocock said if this was more questionable between national parties, there could be no serious objection to the plurality rule The old Whig party was as white as snow compared with the crimson guilt speaking politically, of the Republican party When he saw that its action was addressed in the direction of a second Cand date, he would be justified in refusing, until the era is k of doubt.

Mr Savage expressed similar views.

In the course of debate Humphrey Marshall and Hiter, of Illinois, earnestly denied that Henry Clay favored the passage of the Missouri restriction.

After considerable debate, Mr. Bingham offered a resolution to pay for one week, unless a Speaker should be elected no debate shall be in order unless by unanimous consent Adopted by 3 majority Adjourned.

Washington Matters.

In the debate on Breckinridge Mr Chingman said he once thought that he would no longer favor a plurality rule, because Mr. Banks had placed it upon the extreme and most odious ground that it ever had been maintained on this country, viz: that of the two negroes—the equality of the white and black races Mr. Banks disclaimed the statements imputed to him.

The correspondent of the New York *Times*, referring to the obnoxious position of Mr Richardson says

"If the struggle continues a few days longer, until the Southern press brings back the reflection of public sentiment there, it is apprehended that the defection from Richardson will be considerable and that it may result in the disaffection of a portion of the Democratic party. For one I look upon this movement as most dangerous to the Nebraska Democratic organization It will cherish as sustained upon the platform which he erected on Saturday, thereby jeopardizing the danger that a portion of the South will rebel, and I he should not be sustained in it I have doubt whether the Northern Democracy can be induced to degrade itself quite to the level of submitting that the Constitution carries slavery to the Territories and protects it there, so that even a Squatter Sovereignty can't get it out"

Rumors are in circulation at Washington that the President contemplates another coup d'etat in conjunction with the Senate either by the dissolution of Congress or by insisting the appropriation bills in the Senate, which would be contrary to the spirit though perhaps not to the letter of the Constitution The Washington correspondent of the *Commercial Advertiser* says

There is some talk here about revolutionary measures, and perhaps the President and Senate may take the government into their hands, not only as regard to foreign matters, but the ordinary routine of legislation. The obstacles therein must have disputes The obnoxious appropriations must be met, and very promptly

WASHINGTON, Jan 18.

In the House on Friday Mr Mace, addressing, I see, to the seatesmen, not parliamentary offered in a spirit of compromise a resolution declaring Mr Banks (Republican) Speaker Wm Cullen (American) Clerk A J Glossbrenner Sergeant at Arms John M Johnson Postmaster Z W McKrew Doorkeeper The last three are the nominees of the Democratic Caucus.

The resolution was tabled by a vote of 111 against 90

New York, Jan. 16.

The *Tribune's* Washington correspondent telegraphs "The naval promotions were all sent in to-day—the President having suddenly determined on this course There was much debate in Executive session Mr Bayard denounced the law as infamous No action was taken, and the subject is still pending

The Inspector of the *Courier and Enquirer* telegraphs "A rumor prevails that Mr Buchanan has been ordered to Denmark and his passports as soon as he delivers his last despatch, peremptorily demanding the recall of Mr Crampton It is understood that the President has a Message in readiness communicating these facts

The rejection of the plurality rule and the defeat of Speaker, indicate another month's anarchy After rides despair

NEW NATIONAL BY GOVERNOR—Lindon—Henry J Cotton, Nottsborough, Sheriff, James J Dana, Wisconsin, Register of Probate

Captain Alonzo Follansbee, of the ship St. Denis recently lost at sea, was a native of the town of Putnam in this State, and was about 46 years old at the time of his death on board the ill-fated vessel. The Greatest of the Age!

MR KENNEDY of Roxbury has discovered in one of our common pasture weeds a remedy that cures *FIFTY KINDS OF HUMOR* from the worst Scrofula down to a common pimple. He has tried it in over six hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value all within twenty miles of Boston

Two bottles are warranted to cure the most malignant case of Ringworm

One to three bottles will cure the worst case of Tetter or Salt Rheum.

Two bottles are warranted to cure the worst cankers in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure chronic rheumatism.

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate cases of inflammation.

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed growing upon the pastures, and piled old stone walls should cure every humor in the system, yet it is now a fixed fact If you have a humor it has to start. There are no ifs nor ands about it. Nothing comes easier but not many. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby restored to a perfect state of health by one bottle!

To those who are subject to sick headache, one bottle will insure cure!! It gives great relief in catarrh and dizziness Some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy but where there is any derangement of the functions of nature, it will cause very singular feelings but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—try the experiment when that feeling is come you will feel yourself like a new person I heard some of the most extravagant encomiums on it that ever was listened to

No change of diet ever necessary Eat the best you can get and enough of it.

If not from premature graves In cases of affection the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury or other injurious drug but is a purely VEGETABLE COMPOUND It is very agreeable to the taste, creates no perceptible odor and may be taken by persons of either sex without hindrance from business or special advice, as plain directions for use accompany the medicine Explicit rules are given for the above complaints, on not neglect them,

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent ill exposure

Truth must and will prevail

This medicine speedily and effectually cures the most virulent form of secret diseases and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity*—And as a medicine which must benefit everybody, from the simply delicate to the exciting and debilitating invalid, no equal is to be found acting both as a *Cure and Preventative* in any of the above ailments

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—OR—

Purifying the Blood removing all diseases arising from an *impure state of the Blood* and the *only reliable and effectual known remedy for the cure of Scrofula Salt Rheum, Scald head, Ulcerations of the Throat and Legs Burns and Scalds of the Bones Tetter, Pimples on the Face, and all scaly Eruptions of the Skin*

It is gratifying to the proprietor of these medicines to be able to state that in the now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town country hospital or private practice they have invariably given the most decided and unqualified satisfaction and produced the most salutary and beneficial effects Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over different preparations for such complaints as the proprietor is free to commend Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given all of which of course will differ according to the mode of preparation which each individual may adopt

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and in consequence are most frequently improperly made and not sufficiently if not entirely impaired of not rendered totally inert by the ignorance and unskillful management of those unacquainted with pharmaceutical preparations It is therefore of the highest consideration and importance to the public and to the sufferer that there should be standard preparations of uniform strength and possessing the most certain effects To effect this and enable the afflicted I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to dissolve the most eligible form for their exhibition The experiments have resulted most favorably and it is with much pleasure I refer the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Philadelphia decoction, and one pint thereof fully equals in strength one gallon of Syrup Sarsaparilla or decoction as usually made.

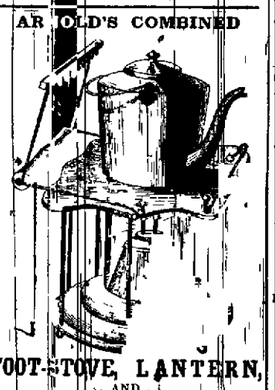
AR OLD'S COMBINED



FOOT-STOVE, LANTERN,

AND

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive rights for manufacturing and vending in Penobscot county the above valuable inventions now prepared to offer them to the public As a FOOT-STOVE, it answers an excellent purpose and will be sufficiently heated in less than one minute to warm and dry the feet on the coldest winter mornings and will be found to be an indispensable article in traveling It is heated by an oil or fluid lamp the flame of which is protected from every external object

As a LANTERN it answers all the usual purposes and is less likely to be overset or get broken and can be used as a house lamp with equal advantage
